The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/578,133	Applicant(s) SHIN ET AL.	
	Examiner Leigh C. Maier	Art Unit 1623	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1 is/are pending in the application.
4a) Of the above claim(s) ____ is/are withdrawn from consideration.

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claim recites a composition comprising a beta-1,3/1,6 glucan. A glucan is by definition of a glucan is a glucose polymer. However, the structure depicted has a non-glucose moiety at the 1,6-branch point. Glucose is a hexose, but the entity at this point is a pentose. Therefore, it is not clear if this is a mistake in the structure, if what is meant a 1,3-glucan with this other moiety at the 1,6-branch point.

The claim further recites that the glucan is one “having a lactic acid a [sic] substituent.” It is not clear what Applicant intends here. Lactic acid, being a discrete molecule and having no open valence, is not a term for a substituent, as such. See the difference between methyl and methane, for example.

Due to the ambiguity in the claim set forth above, the claim is rendered vague and indefinite.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 1623

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Jang et al (KR 03-39872). Applicant has provided an English translation of the abstract. The examiner is relying on a machine translation of this document to indicate its content. The citations refer to this translation.

Jang discloses a beta-glucan isolated from *Aureobasidium pullulans* SM-2001. The reference is silent regarding a lactic acid substituent or the prevention/treatment of osteoporosis. However, the reference glucan appears to be prepared by the same method as the instant glucan. Therefore, it appears that the reference product must be identical to the instant product. With respect to the prevention/treatment of osteoporosis, the claim is to a product and not a method. An identical product must have the same therapeutic activity.

Since the Office does not have the facilities for preparing the claimed materials and comparing them with prior art inventions, the burden is on Applicant to show a novel or unobvious difference between the claimed product and the product of the prior art. See *In re Best*, 562 F.2d 1252, 195 USPQ 430 (CCPA 1977) and *In re Fitzgerald*, 619 F.2d 67, 205 USPQ 594 (CCPA 1980).
